Plus mixing board, mixing knife, plastic applicator, reinforcement tape, sandpaper roll, alcohol wipes and disposable gloves...

All packed in a handy tool box!

Pharmaceutical Company Uses ENESEAL CR to Protect Roof-Top Air Handler Fans & Ductwork

Client: Pharmaceutical Company

Location: Eastern U.S.

Problem: Environmental corrosion was causing severe rust conditions on the fans, pads and ductwork.

Solution: Not only did the building engineers want to stop the rust but they also required a uniform, medium gloss, brush/roller mark-free finish. ENESEAL CR was chosen to satisfy all of the above criteria.

This work was done over the course of 5 months and the engineers we so pleased with the results it has lead to many other applications at the facility.

Enecon announces new Emergency Leak Repair Kit. See our "new products" on the left side of the Newsletter.
