1 x 250 gm unit
 SpeedAlloy QS

Plus mixing board,
 mixing knife, plastic
 applicator, reinforcement
 tape, sandpaper roll,
 alcohol wipes and
 disposable gloves...

All packed in a handy
 tool box!

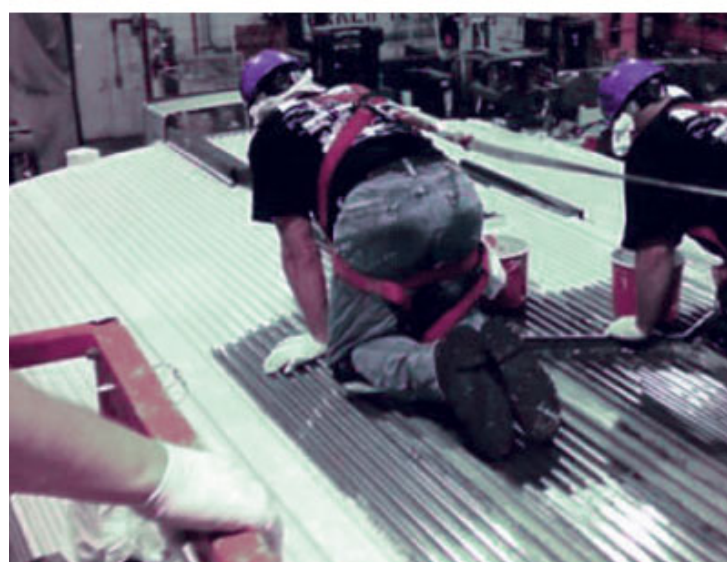

One of the Largest U.S. Mass Transit Operators Uses ENESEAL to Stop Leaks into 30 Year Old Train Cars

Client: One of the largest mass transit operators in the U.S.

Problem: Existing methods to stop water leaking into the train from roof seams were not working. A complete overhaul of the roofs was being considered.

Solution: The surface was prepared by high pressure washing and the seams were sealed with a silicone caulk. ENESEAL CR was applied as a surface primer followed by two coats of ENESEAL HR.

Savings: Compared to a complete roof overhaul, the ENECON solution cost is significantly less per car. The transit operator was so pleased with the results, 330 cars were scheduled to be repaired. Over 100 have been successfully repaired to-date.

Enecon announces new Emergency Leak Repair Kit. See our "new products" on the left side of the Newsletter.
